30th International Conference on Software, Telecommunications and Computer Networks

SoftCOM 2022

22-24 September 2022 // Split, Croatia

Symposium on:

Information Security and Intellectual Property

6th ISIP 2022

Symposium co-Chairs: Marija Boban, University of Split, Croatia
Gordan Ježić, University of Zagreb, Croatia

Call for Papers

Symposium on "Information Security and Intellectual Property (ISIP)" will be held on September 22 - 24, 2022 in Split, Croatia in the frame of the 30th International Conference on Software, Telecommunications and Computer Networks (SoftCOM 2022), which is technically co-sponsored by the IEEE Communications Society (ComSoc). The conference call of 6th ISIP 2022 is an invitation to authors to submit their high-quality papers representing original results from social and technical sciences combining knowledge from information sciences, law, economics, technical sciences and geopolitics.

Accepted and presented papers will be published in the symposium proceedings. The papers with original contribution in the technical field will be published in the conference proceedings and submitted to IEEE Xplore, as well as, other Abstracting and Indexing (A&I) databases. Authors of selected papers with original contribution in the technical field will be invited to submit an extended version of their manuscripts for publication in a special issue of the Journal of Communications Software and Systems (JCOMSS).

Topics of interest include, but not limited to:

- New technologies and information security
- Protection of personal data- legal and security issues
- IoT - technical and legal issues
- New technologies and intellectual property
- National security - new security challenges
- Terrorism as a threat to modern society - legal and security issues
- Local government and new technologies - building Smart cities capacities
- Computer Crimes - legal and security issues
- Cyber crime- legal and security issues
- New technologies in medicine informatics
- Information Management in modern organizations
- Crisis communication and crisis management
- Consumer Protection Rights in Digital economy
- Maritime Cyber Risk management and maritime cybersecurity
- Legal and security challenges of Cloud Communications and Computing
- New technologies, local government and Green Networking Technologies
- Financial sciences and information security
- GDPR - General Data Protection Regulation
- Security and legal challenges of Internet of Things
- Information Security Management Systems in Digital economy surroundings
- National security systems and forensics
- Digital forensics and security
- Crisis and business continuity management
