

22-24 September 2022 // Split, Croatia

## 28<sup>th</sup> Workshop on Information and Communications Technologies

28<sup>th</sup> Workshop on ICT will be held in the frame of the 30<sup>th</sup> International Conference on Software, Telecommunications, and Computer Networks (*SoftCOM 2022*) on September 22 - 24, 2022 in Split, Croatia and will provide an open forum for information and communications technology professionals and engineers to discuss new and emerging systems, standards and services, and their applications in telecommunications and information systems. We are soliciting technical contributions presenting state of art in the wide spectra of contemporary ICT systems and applications including the measurements set-ups, original developed applications as well as demonstrations of ICT prototypes. *SoftCOM 2022* will offer a pleasant open space in the Conference hotel to support the presentation of systems and applications. Topics of interest are the same as research topics of *SoftCOM* - see the [Call for SoftCOM 2022 General Conference](#).

Authors are invited to submit their proposals through the EDAS. Paper submissions should be prepared in the two-column IEEE format. Accepted papers will be published in the Workshop proceedings (not in IEEE Xplore).

### Steering Committee

Matko Šarić chair  
*University of Split, Croatia*  
Zoran Blažević  
*University of Split, Croatia*  
Miljenko Mikuc  
*University of Zagreb, FER*  
Petar Šolić  
*University of Split, Croatia*
